

## Do you have an idea and need help in creating high impact graphics?

Whether you are creating a new logo, event theme, advertisement, newsletter or flyer, an effective and professional design will get the attention you need to help you sell your ideas! We can create artwork from your ideas or sketches as well as clean up your existing artwork.

## Here are just some of the graphic design services we provide:

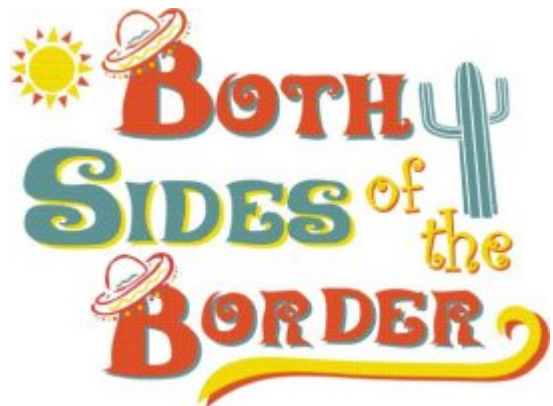

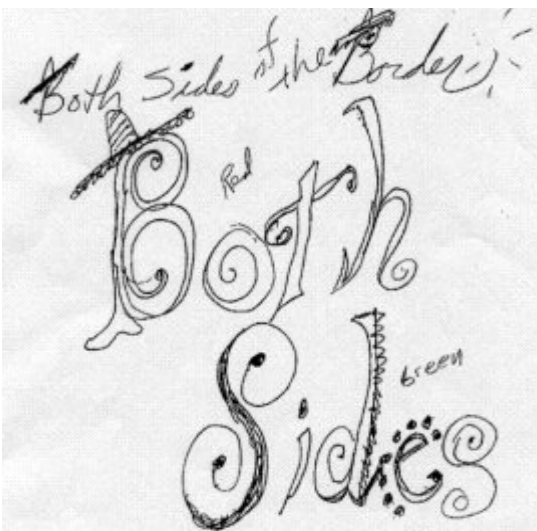

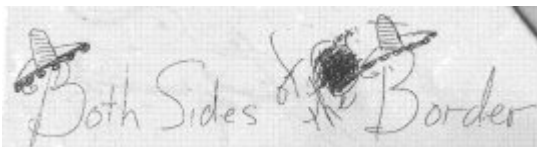

- Creation of new logo designs
- Design and layout for tradeshow and event signs and banners as well as booth graphics
- File conversion from one program to another (e.g., Corel Draw to EPS vector art)
- Layout and design for professional quality printed pieces including flyers, advertisements, product sheets, catalogs, newsletters, mailers, postcards, business cards, letterhead and envelopes
- Providing art to exact specifications for any project

## We make it easy to work with us!

- All jobs are quoted up front
- We provide online proofing
- Standard production time is 48 hours with rush service available
- We will store all your artwork for future needs
- Our pricing is extremely competitive

## Case History

The following is an example of a new restaurant that requested our help in creating a logo to be used for their outdoor sign, embroidered sportswear, promotional giveaways as well as other items to be used in the restaurant. We used the black and white sketches on the left side from the customer to create the images on the right side. They loved them both with no changes, each to be used for different purposes.
